Contents

Vol. 117, No. 1—2, 1994

Original Papers

Simple Diffuse Reflectance UV-Vis Spectroscopic Determination of Organic Pigments (Fringelites) in Fossils
H. Falk, E. Mayr, A. E. Richter 1

Coprecipitation with Metal Hydroxides for the Determination of Beryllium in Seawater by Graphite Furnace Atomic Absorption Spectrometry
M. Hiraide, K. Ishikawa, Z. S. Chen, H. Kawaguchi 7

Spectrophotometric Determination of Fe(III) with Tiron in the Presence of Cationic Surfactant and its Application for the Determination of Iron in Al-Alloys and Cu-Based Alloys
S. N. Bhadani, M. Tiwari, A. Agrawal, C. S. Kavipurapu 15

The Mutual Catalytic Effect in Kinetic Reactions and its Application to Simultaneous Determination of Binary Components
W. Jianhua, H. Ronghuan 23

Potentiometric Study of the Distribution Equilibria of Phenols Between 1.0 mol dm^{-3} NaCl and Organic Solvents at 25° C
G. Arana, N. Etxebarria, L. A. Fernández 31

Energy Filtered Transmission Electron Microscopy for the Physico-Chemical Characterization of Aquatic Submicron Colloids
D. Mavrocordatos, C.-P. Lienemann, D. Perret 39

Determination of Arsenic in Mussels by Slurry Sampling and Electrothermal Atomic Absorption Spectrometry (ETAAS)
P. Bermejo-Barrera, M. J. Lorenzo-Alonso, M. Aboal-Somoza, A. Bermejo-Barrera 49

Determination of Nb(V), V(V), Co(II), Fe(III), Ni(II), Ru(III) and Pd(II) as Their 4-(5-Nitro-2-Pyridylazo) Resorcinol Chelates by Reversed-Phase High Performance Liquid Chromatography
H. Wang, Y.-X. Miao, W. Mou, H. Zhang, J.-K. Cheng 65

Pharmaceutical Formulation Analysis of Thalidomide by Solid Surface Room Temperature Phosphorimetry
R. Q. Aucélio, A. D. Campiglia 75

Correction Procedure for the Electron Microprobe Analysis of Porous Materials
K. Knížek, K. Jurek 87

A Comparison of X-Ray Fluorescence Spectrometric (XRF) Techniques for the Determination of Metal Traces, Especially in Plastics
U. Metz, P. Hoffmann, S. Weinbruch, H. M. Ortner 95

Complexometric Determination of Copper(II) in Ores, Alloys and Complexes Using 2-Mercaptoethanol as Indirect Masking Reagent
B. Muralidhara Rao, B. Narayana, K. Subrahmanya Bhat 109

Vol. 117, No. 3—4, 1995

Original Papers

PVC Matrix Membrane Electrodes Based On Cobalt and Nickel Phenanthroline Complexes for Selective Determination of Cobalt(II) and Nickel(II) Ions
S. S. M. Hassan, W. H. Mahmoud 121

Determination of Unsulphonated Quinoline Yellow in Soft Drinks by Solid-Phase Spectrophotometry
L. F. Capitán-Vallvey, I. de Orbe, S. López-Rodríguez, R. Avidad 129

Extractive Spectrophotometric Determination of Niobium(V) Using 3-Hydroxyflavone
A. K. Chhakkar, L. R. Kakkar 137

Electropolymerization of 1-Naphthylamine and the Structure of the Polymer Film
S.-S. Huang, J. Li, H.-G. Lin, R.-Q. Yu 145

Quantitative Anodic Generation of Cobalt(III) at Glassy Carbon in Acetic Acid. Coulometric Titrations with the Generated Reagent
T. J. Pastor, V. V. Antonijević, J. Barek 153

Spectrophotometric and Derivative Spectrophotometric Study of the Reaction of Palladium(II) and Rhodium(III) with 5-(3, 4-Methoxyhydroxybenzylidene)rhodanine and Cationic Surfactants
A.-A. Y. El-Sayed 161

The Micro Water/1, 2-Dichloroethane Interface as a Transducer for Creatinine Assay
M. D. Osborne, H. H. Girault 175

Spectrophotometric Determination of 6-Aminopenicillanic Acid Using Bromophenol Blue and Bromothymol Blue
A. S. Amin, Y. M. Issa 187

Immobilization of Proteins on Gold Coated Porous Membranes Via an Activated Self-Assembled Monolayer of Thioctic Acid
C. Duan, M. E. Meyerhoff 195
